

Correction

The authors of "Cell shape impacts on the positioning of the mitotic spindle with respect to the substratum" (Mol. Biol. Cell [2015] 26, 1286–1295; originally published in *MBoC In Press* as 10.1091/mbc.E14-08-1330) wish to make a correction to the Acknowledgments of the article. In the original HTML and PDF versions, the authors omitted mention of a grant that supports their research, FONDECYT 1110288. The correct Acknowledgments text is below.

We are grateful to Quansheng Du for the LGN-KD/GFP and GFP-control MDCK clones and Dawn Fernandez for validating the LGN-knockdown efficiency by semi-quantitative PCR. We thank the Müsch lab for critical discussions throughout the course of the study and the anonymous reviewers for input on the manuscript. This work was supported by National Institutes of Health Grants RO1 DK064842 and CA160790 to A.M. and FONDECYT Grant 1110288 to I.I.

The HTML and PDF versions were corrected on the *Molecular Biology of the Cell* website on April 13, 2015. These corrections may not appear on copies of the article that reside on other websites.
